The RTD-03S waist-high rotor turnstile with wooden handrails is designed for controlling access to facilities with high style and comfort requirements.

Delivery set

- turnstile housing
- guide barrier set
- remote control unit with power supply and battery
- remote control panel

The elegant winged design of this PERCo turnstile meets both comfort and aesthetic requirements for a smart entrance point.

- 90° rotor configuration
- LED directional indicators

The RTD-03S waist-high rotor turnstile comes with a guide barrier set as standard.

The RB-03TP guide barrier set consist of posts made of polished stainless steel tube Ø50 mm, filler panels of tinted polycarbonate sheets and wooden handrails with built-in LED directional indicators.

High durability and injury-free operation make the use of the RTD-03S long-lived and safe. The electric drive provides smooth, noiseless and inertia-free rotation.

Key override control enables mechanical unblocking of the turnstile for free rotation in both directions.

If required, the turnstiles can be completed with matching railings.

Operating voltage	24 V DC
Power consumption	60 W
Number of passage directions	2
Throughput rate (in the single passage mode)	23 persons/min
Dimensions (length×width×height), without a guide barrier set	1202×1202×1013 mm
Dimensions (length×width×height), with a guide barrier set	1531×1345×1071 mm
Passageway width	600 mm
Operating temperature range	from +1 °C to +50 °C
IP Code	IP41

Frame, guide barrier set – stainless steel.

stainless steel

Filler panels – polycarbonate sheets.

Handrails – solid ashwood / beechwood.

The warranty period is 5 (five) years from the date of sale of the product.

LED indicators at wooden rails of RTD-03S turnstiles

Control panel for remote management

RTD-03S half height turnstiles have mechanical over blocking function
